TALENT TOKEN

# WHITEPAPER

# **We shine a light on young people who are little known and remain in the dark in the fields of e-Sports and Sports.**

## **Purpose**

Talent (TALT) Token; It is a project developed in Turkey in 2022, aiming to develop young talents and shine like a star. The Talent project treats young stars with the developed 4 Way method and provides important guidance in the development process. Talent can evaluate young stars who are talented in all sports and e-sports.

To create and manage World Stars in the world sports market, especially in team sports and individual sports such as tennis, by discovering important talents at a young age and developing them with the DAP+W (Dynamic Athletic Performance 4 way) system.

To offer these young stars to small investors and to make huge profits with little investment capital.

**OUR STRATEGY:** Finding talents from the age of 12 in every continent, in every country, in every city. To create a screening system that will create "WORLD STARS" by developing it with our own training and education system.

- With our own screening, scouting and coaching ambassadors and our own international network extending to the local; We will generate extra income by having both an important employment and a serious talent and athlete data.
- As each talent can be a separate investment tool, we will also create a new financial resource for clubs by using Talt Tokens as currency in transfers of talents.

## Utility

### Being First

We will be the first in the world sports industry by providing investor income from human resources, transferring values of sportive achievements, and making profits for fans, investors, athletes and the club.

### Continuity

In order to be in constant communication with our investors, we will use the investors as active partners by establishing b2b communication on our Applications and Websites and providing up-to-date information and scouting data entry about the continuous talents.

### Team Experience

The Talt Token team and its developers are professionally made up of people who have achieved success in the sports/e-sports and cryptocurrency project development industry.

## 4-Way Dynamic Athletic Performance

It is a development program used in Turkey for the first time in the world, which provides the technical, mental and physical development of the athlete in a very short period of time. 4-Way Dynamic Athletic Performance systematically uses the communication between muscle memory and the brain, team and athlete analysis, and the nervous system with the "Dynamic Athletic Performance Program" specially designed according to needs.

Burak Ç.  
E-Sport Manager

## Founder

It is one of the most important chances in my life to experience senior management and high-level sportsmanship in the best institutions throughout my career.

He started his first professional basketball career in Ankara Yenişehir Sports Club. I played for national teams 87 times in Turkey: Güney Sanayi, Fenerbahçe, Beşiktaş, Eczacıbaşı clubs, Saharja Sedena in UAE Dubai, Post Ludwigshafen, Post Mannheim and Sandhausen clubs in Germany. Later, I started my business life directly at Aseemas General Trading company in Dubai, and then... After working as General Manager at Kadr Textile and Lesson Gmbh in Germany; I held senior management positions in important brands such as Vakko and Sarar in Turkey. Having very significant experience and experience in retail sales and merchandising has enhanced my brand management expertise.

I gained general management experience as a foundation in many sectors in domestic and international markets by providing consultancy and training services.

Giving particular importance to my educational work in order to convey my experiences:

- Miracle of Motivation
- Coaching, Management and Leadership
- I continue to manage with targets and give my marketing and sales trainings to various institutions in different sectors.
